Acrylic mounting offers you a stylish, unique way of showcasing your images. Your image is printed on professional glossy photographic paper, then mounted on acrylic using archival quality adhesive. The display is then topped off with metal corner mounts for a stunning finish.

Acrylic Tiles

Acrylic tiles are an exciting and unique product that is new to the Australian market.

An Acrylic Tile is your choice of photo set in a stylish, modern acrylic tile with high visual impact. The depth of the acrylic tile gives the image a luminescent, floating, three dimensional effect, and the tiles are freestanding, so no hanging is required.

Acrylic Tiles can be placed inside or outside under a covered area, and come in four sizes. Prices start at \$100 for a 4x4 Inch Tile.
